WHAT IS PATCHOULI?

Patchouli is a species of flowering plant in the family Lamiaceae, commonly called the mint or deadnettle family. It is a bushy perennial herb with small pale pink-white flowers.

It is noted for its fragrant essential oil.

Indonesia currently produces over 90% of the global volume of patchouli oil.

It forms part of the woods and mosses category in perfumery notes.

WHY PATCHOULI?

The popularity of Patchouli has grown due to its benefits as a mood boosting essential oil and its calming properties.

Patchouli work exceptionally well in fine fragrance, with many of the major perfumers creating very popular scents.

Because of its strong fragrance, it's often used as a base scent in candles and perfumes.
