# WHAT IS PATCHOULI?

---

Patchouli is a species of flowering plant in the family Lamiaceae, commonly called the mint or deadnettle family. It is a bushy perennial herb with small pale pink-white flowers.

It is noted for its fragrant essential oil.

Indonesia currently produces over 90% of the global volume of patchouli oil.

It forms part of the woods and mosses category in perfumery notes.

# WHY PATCHOULI?

---

The popularity of Patchouli has grown due to its benefits as a mood-boosting essential oil and its calming properties.

Patchouli works exceptionally well in fine fragrance, with many of the major perfumers using Patchouli to create very popular signature scents.

Because of its strong fragrance, it can also be used as a base scent in candles and other formulations.
