# SUMMER SUN

The unmistakable scent of summer.

Whether it be the energising scent of summer fruits, the smell of freshly cut grass or the coastal and ozonic fragrances of sea salt and woody notes, the scent of summer is undeniably appealing.

Summer scents present us with a sense of optimism and possibility, whilst also offering us the opportunity to feel rejuvenated, revived and restored.

# ENERGISED

Fragrances directions for these summer-inspired products take their inspiration from tropical fruits, bold and vibrant flowers and the more sultry gourmand fragrances like coconut.

These skin-protecting summer products are loaded with these tropical, energy-inspiring fragrances.
